How to Use Leawo DVD to Blu-ray Converter - Burn DVD to Blu-ray

Leawo DVD to Blu-ray Converter is the best DVD to Blu-ray burning software tool for you to convert and burn DVD content to Blu-ray disc, folder and/or ISO image file with desired disc menu. The below guide would show you how to burn and convert DVD to Blu-ray with Leawo DVD to Blu-ray Converter in detail.

To get started, you need to get the below things well prepared:

- Blank writable Blu-ray disc if you want to burn DVD content to Blu-ray disc.
- Recordable Blu-ray drives for burning Blu-ray disc.
- Source DVD-9/DVD-5 content in disc, folder, and/or ISO image file.
- Enough hard drive space for burning Blu-ray folder/ISO image file.
- Internet connection. .

You also need to download and install [Leawo Prof. Media](#) on your computer, since Leawo DVD to Blu-ray Converter is a module packed in Leawo Prof. Media.

Step 1: Add source DVD content

Kick off Leawo Prof. Media. Click either “Burn” button on the menu bar or “DVD to Blu-ray Converter” option in the middle to enter the DVD to Blu-ray Converter module.

On the “Burn” module, click the “Add DVD” drop-down button and then choose “Add from CD-ROM”, “Add from folder”, or “Add iso file” option to load source DVD contents. You could load multiple DVD contents for burning to Blu-ray.

Leawo DVD to Blu-ray Converter offers 3 different DVD loading modes: Full Movie, Main Movie and Custom Mode. Full Movie mode helps convert and burn all source DVD titles for burning to Blu-ray, Main Movie mode allows choosing one source DVD title for burning to Blu-ray, while Custom Movie mode enables selecting several source DVD titles for converting to Blu-ray.

After loading source DVD titles, you could play back loaded video files, directly drag and drop video for adjusting order, view video info, rename output file, select audio tracks, etc.

Note: To burn DVD to Blu-ray, at the bottom left corner, click the drop-down button and then choose one from BD-25 and BD50 according to the Blu-ray content type you want to create. You could view required space at the bottom as well.

Step 2: Add disc menu (optional)

On the right sidebar, you could choose a disc menu template to add disc menu for output Blu-ray file. There are quite a few themes available under the “Built-in” tab: Standard, Business, Childhood, Education, Holiday, Nature, Sports, and Wedding. You could also download more templates from the “Online” tab, and choose one from the “Custom” tab. The “Custom” tab groups all disc menu templates you have designed by yourself. Choose one template and then click the middle of the theme to get instant preview of selected disc menu template. If you don’t want a disc menu, just check the “No Menu” option in the top of the “Built-in” tab.

On the preview panel, you could click the “Play” button to play back loaded videos, or click “Scene” option to view the chapter list. By clicking the pencil icon, you could enter the disc menu designer interface to design disc menu according to your own will.

On the disc menu designing interface, you could change title, adjust text font/size/color, add background image/video/music, change the chapter list order, etc. After settings these, you could click the “Save template” button to save designed disc menu as a new template to “Custom” tab for future use.

Step 3: More DVD to Blu-ray burning settings

On the “Burn” interface, click the big green “Burn” button for more DVD to Blu-ray burning settings. There will pop up a sidebar on the right, which includes settings of “Burn to”, “Disc Label” and “Save to”.

- **Burn to:** Decide what Blu-ray file type you want to create, Folder, ISO Image File, and/or Blu-ray disc. This setting allows multiple choices. If you want to create Blu-ray disc,

make sure you have inserted a writable Blu-ray disc into the Blu-ray drive that's connected to your computer.

- **Disc Label:** Give the output Blu-ray file a name.
- **Save to:** Set a hard drive to handle the Blu-ray burning and save the output Blu-ray file. Make sure you have chosen a hard drive that has enough space. You could view required space here.

Right next to the folder icon , you could see a clickable drop-down button, which lets you decide how many Blu-ray disc copies you want to create. This is available only when you have chosen to create Blu-ray disc option under the “Burn to” section.

Step 5: Start burning DVD to Blu-ray

Finally, click the “Burn” button at the bottom of the sidebar to start burning DVD to Blu-ray within Leawo DVD to Blu-ray Converter. On the “Burning” interface, you could view the entire burning process and set after-done operation at the bottom right corner.

How to Set Leawo DVD to Blu-ray Converter

If you have any problem in using Leawo DVD to Blu-ray Converter or any other module of Leawo Prof. Media, you could directly contact us or send a feedback, and get quick help from the program.

On the top-right corner of Leawo Prof. Media, you could see a few icons, which are described in detail below:

- **Feedback:** Click the “feedback” icon  to send feedback of using Leawo Prof. Media, like advice, review, function need, etc.
- **Activation center:** Click the “Activation center” icon  to enter the Activation Center interface for registering and activating Leawo Prof. Media modules.
- **Settings:** Click the “Settings” icon  to set Leawo Prof. Media, which will be described below in detail.
- **Help center:** Click the “Help center” icon  to get more help from Leawo, like visiting Home page and Tutorial page, sending Bug Report, checking for update, purchasing, registering, rating, etc.

Leawo Prof. Media provides multiple program settings for you to better use this program. You could click the “Settings” icon  to set Leawo Prof. Media, including:

General settings

On the “General” tab, you could set program UI language and other settings.

Conversion settings

On the “Conversion” tab, choose to enable Priority native codec, streaming MP4 video, DVD navigator, max run, etc.
