

User Guide of Leawo iTransfer

Leawo iTransfer provides perfect solutions for iPhone transfer, iPad transfer and iPod transfer issues. It can be used for transferring many kinds of files among iOS devices, iTunes and PCs. Leawo iTransfer is helpful for backing up iPhone, iPad and iPod (touch) files to computer. It makes the iPhone, iPad and iPod as flash drives so that users can put anything they want into their iOS devices. Moreover, Leawo iTransfer allows users to manage the playlists of the iOS devices and iTunes within the software.

The following guidance will show you the full functions of Leawo iTransfer and how to use Leawo iTransfer. The user guidance will be divided into 9 parts. In every part, iPhone is taken as an example.

1.3. File

The "File" button includes 5 options: Add, Preview, Transfer to, Playlist, Eject Device, Exit.

a. Add: used in the computer to iOS devices transfers. After choosing the library to add files, click "Add File" to add one or more files from computer; Or "Add Folder" to add a folder of the certain kind of files to iOS devices.

b. Preview: used in browsing files in the software. Choose a file and click "Preview", then a pop-up screen at the left bottom shows up to play the file been chosen.

c. Transfer to: used in the iOS devices to computer transfers, iOS devices to iTunes transfers and iOS devices to iOS devices transfers. When finished choosing files for transferring, click the "Transfer to" and choose where to transfer the files to.

d. Playlist: used in managing playlists of iOS devices or iTunes. Choose a playlist at the left sidebar and click "playlist", users can choose to "Add Playlist", "Delete Playlist", "Import Playlist" and

"Rename Playlist".

e. Eject Device: make the software stop scanning the device.

f. Exit: used to shut down the software

1.4. Edit

The "Edit" button includes options of "Copy", "Cut", "Paste", "Check all" and "Uncheck all".

Copy	Ctrl+C
Cut	Ctrl+X
Paste	Ctrl+V
Check All Uncheck A	Ctrl+A

a. Copy: used in copying files within the software. For example, if users want to copy a song from the Music Library to the Playlist, they can use this option to save time.

b. Cut: Almost like "Copy", but once cut the file, users will lose the file in the original position.c. Paste: Once "Copy" or "Cut" the file, users can "Paste" the file within the software.

d. Check All/Uncheck All: used for checking the files. If you are going to transfer all the files to computer or iTunes, you could choose "Check All"; if you only want to transfer certain files, you could choose

"Uncheck All" and then select the certain files you want.

1.5. View

The four options of "Preview", "Table", "Cover" and "Refresh F5" are included in this "View" button.

a. Preview: used in browsing files in the software. Choose a file and click "Preview", then a pop-up screen at the left bottom shows up to play the file been chosen.

b. Table: used in showing your files as table.

- c. Cover: used in showing your files as cover.
- d. Refresh: click this option to refresh your files.

1.6. Tools

The "Tools" button includes two options of "Refresh Devices" and "Preference".

```
Refresh Devices Ctrl+F5
Preference
```

a. Refresh Device: After transferring files, users can click "Refresh Device" to make the software scan the device again. Users can check whether the files being transferred or not.

b. Preference: used for setting up proxy and the sources of the software. Users are able to set up

the proxy and choose the files that users want to display in the software.

1.7. Help

Help: includes options of "Help Topic", "Support", "Feedback", "Check for Updates", "Bug Report", "Home Page", "Register", "Purchase" and "About".

Help Topic
Support
Feedback
Check for Updates
Bug Report
Home Page
Register

About
About

a. Help Topic: Link to the page of Leawo iTransfer User Guidance.

b. Support: Link to the support page of Leawo iTransfer.

c. Feedback: Send your feedback of Leawo iTransfer to the company, and they will make improvements according to your feedback.

d. Check for Updates: Check for the latest version of the software.

e. Bug Report: If users find bugs when using the software, they can send the bug report to Leawo Software.

f. Home Page: Link to the home page of Leawo iTransfer.

g. Register: Once users pay for the software, they will get the registration code, and then users can register the software by clicking this option.

h. Purchase: Users can click here to visit the official purchase page of Leawo iTransfer and purchase Leawo iTransfer.

i. About: Show the version and website of Leawo iTransfer

2. How to Register Leawo iTransfer Windows Version?

Step 1. Purchase Leawo iTransfer for Windows. There are 2 accesses to the purchase page:

a. Directly visit Leawo iTransfer official site and click the "Buy Now" button to enter the purchase page.

b. Click the "Help > Purchase" on the top right of your iTransfer main interface.

Step 2. Choose the license you need on the purchase page, fill in your contact information to proceed and choose a payment method to pay for the license. We provide customized licenses to meet your needs.

1 Year License: the license will be valid within 1 year. One license can only be used on one computer.

Lifetime License (1 PC / Mac): the license is only valid on 1 PC or Mac and updates will be free. **Step 3.** Our system will automatically send the registration info to your e-mail address once your order is validated. Check your E-mail to get the registration code of iTransfer for Windows. **Step 4.** Launch Leawo iTransfer on PC, then click "Help > Register". Enter the registration code and click "Register" to finish the registration.

3. How to Transfer Files from Computer to iPhone

3.1. Step 1. Connect iPhone to Computer.

The starting image of the software is just like below. When you have connected iPhone to computer, the software will show the detailed information of the iPhone. The library and playlists of iPhone will show in the left sidebar accompanied with the library and playlists of iTunes.

7. How to Use iPhone as a Flash Drive

7.1. Step 1. Connect iPhone to computer

Run Leawo iTransfer and connect iPhone to computer with the USB cable. The software will recognize and detect your iPhone. Click the name of iPhone and find **USB Storage** in the left sidebar.

7.2. Step 2. Store files

Click the **Add** button to add files from your computer. You can also create new folder by clicking the **New Folder** button. You are able to save any kinds of files in this library if you have enough storage space.
